

Minor to Moderate Flooding

Key Messages

- Far southern valley points have crested with the remainder of the mainstem Red River seeing rises.
- Melt continues to create very little overland flooding issues.
- No major precipitation systems on the horizon.

Minor to Moderate Flooding

Impacts:

- A few township and county roads closed due to water over roads in both Minnesota and North Dakota.
- Minimal overland flooding due to soil absorption.

Basins Impacted:

- *Red River Mainstem*: Mostly minor flooding ongoing with Oslo and Fargo expected to reach into moderate flood levels.
- *ND Tributaries*: Moderate flooding at Abercrombie, remainder of sites above action stage.
- *MN Tributaries*: Minor flooding expected at Hendrum and Dilworth. All other sites above action stage.

Upcoming Weather and Potential River Impacts:

- More precipitation coming tonight into Friday, and possibly early next week. At this time, amounts look to be minimal and likely to have very little, if any, effect on river levels.
- Temperature trends on par with what we have been seeing the past few days.

7-Day Temperature Outlook

| Day of the Week | Highs | Lows (Overnight) |
|---------------------|---------|------------------|
| Thursday, March 24 | 41 - 51 | 23 - 33 |
| Friday, March 25 | 28 - 44 | 7 - 19 |
| Saturday, March 26 | 20 - 36 | -1 - 18 |
| Sunday, March 27 | 23 - 40 | 13 - 28 |
| Monday, March 28 | 34 - 50 | 22 - 33 |
| Tuesday, March 29 | 35 - 45 | 20 - 26 |
| Wednesday, March 30 | 32 - 44 | 17 - 26 |

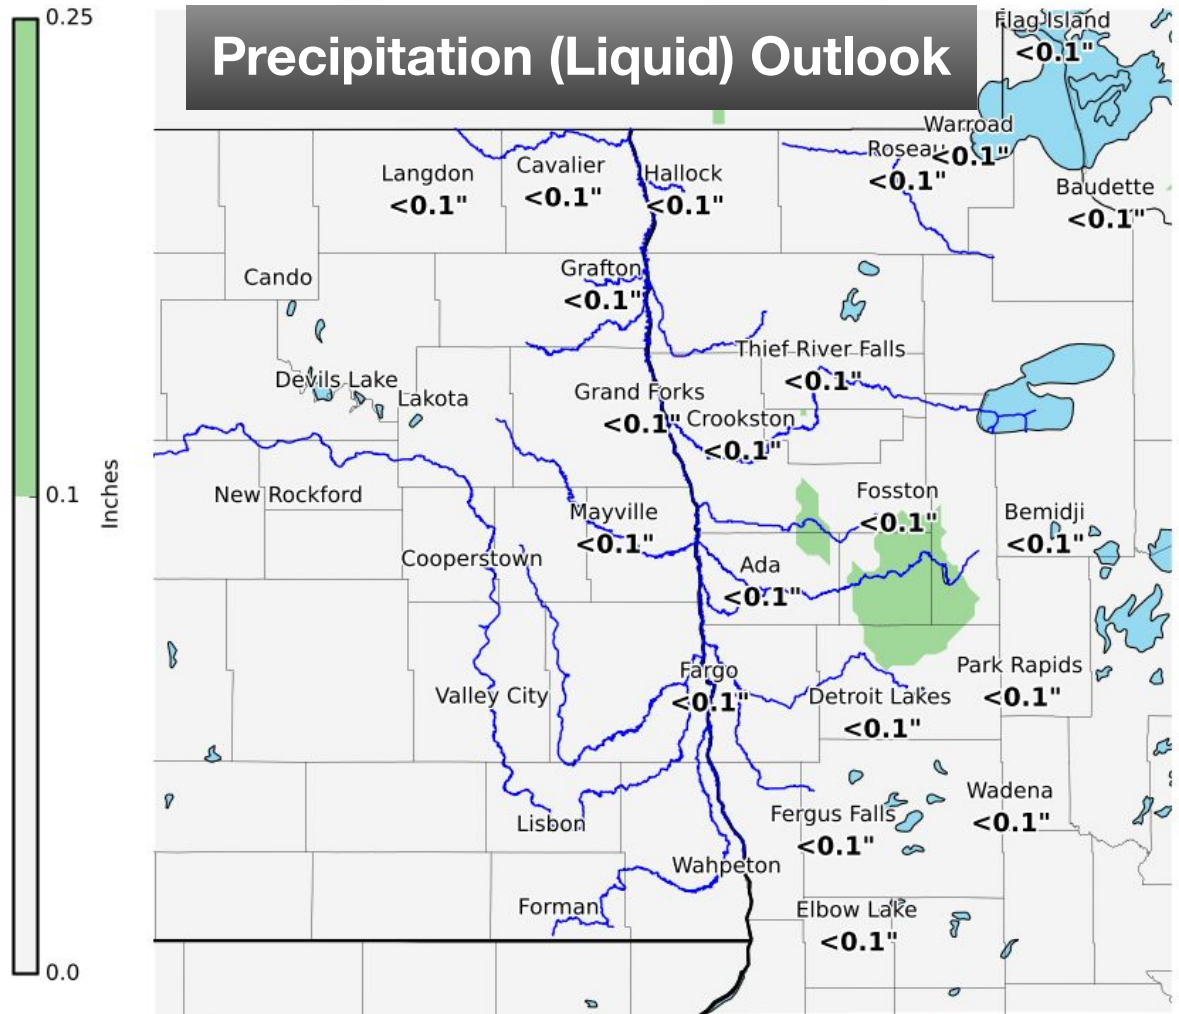

2022 Spring Flood Update

3/24/2022
12:06 PM

Minor to Moderate Flooding

Forecast precipitation included in today's river forecasts

Precipitation amounts beyond the river model forecast precipitation period are denoted by low, medium, or high chances of receiving the amounts indicated below.

| Date | Type | 0.01 - 0.25" | 0.26 - 1.00" | 1.00" + |
|----------------------|-----------|--------------|--------------|---------|
| Sunday, March 27th | None | – | – | – |
| Monday, March 28th | None | – | – | – |
| Tuesday, March 29th | Rain/Snow | Medium | – | – |
| Wed., March 30th | Rain/Snow | Medium | Low | – |
| Thursday, March 31st | Rain/Snow | Low | Low | – |
| Friday, April 1st | Rain/Snow | Low | – | – |

| | |
|--------|------|
| High | 100% |
| Medium | 70% |
| Low | 40% |
| | 10% |

Minor to Moderate Flooding

Key Messages

- Far southern valley points have crested with the remainder of the mainstem Red River seeing rises.
- Melt continues to have very little overland flooding issues.
- No major precipitation systems on the horizon.

Quick facts you should know about flooding:

- Flooding can be caused by heavy rain, rapid snow melt, ice jamming, levee overtopping, dam failure, or from wastewater systems.
- It only takes six inches of fast-moving water to knock you off your feet
- A car can be moved in as little as two feet of water.
- 90% percent of all U.S. natural disasters declared by the President involve flooding.

Preparedness:

- ***Know your risk:*** Are you in a flood-prone area? Know your zone:
<https://www.fema.gov/glossary/flood-zones>
- You must purchase separate flood insurance for your home. There is a 30-day waiting period between when you buy a flood insurance policy and when it goes into effect.
