#### 3. Bois de Sioux Adventure Area- Scott Nicholson:

- On June 16<sup>th</sup> was the start of the construction with the help of donation of staff, time, materials and equipment from Doosan Bobcat, RDO, Builder's First Choice and many more individuals.
- Currently there is just under a mile of done, rideable trails. There is more work to be done. So, for the next 4 Monday's (starting July 18<sup>th</sup>) at 6:30 pm there will be cleaning and clearing of the trail. If you (or group) are interested in helping contact Scott.
- They are looking to improve, add on and enhance the trail and surrounding area. This is to include trails, trail head construction and landscaping.
- They are looking for someone to help with social media and looking for a graphic designer to help with making a logo. If you know of anyone that maybe interested contact Scott.
- PartnerSHIP 4 Health is possibly interested in funding signage, bike rack, bicycle maintenance station and air pump. However, the funding would need to take place over the next several years.
- Corinna asked if this would possible be a location for the "traffic garden" from past discussions. Scott said there is plenty of space and there is thoughts to add a skills park in the future, which would tie in to safety of walking/biking.
- There has been several suggestions and inquiries regarding kayaking kiosk, drone skills, designated parking for vehicles and/or boat trailers. Scott stated that with the amount of space there is the ideas are possibilities are endless. However, there is a concern for the crossing of Minnesota Ave and not having a designated crossing.
- Items that are needed/requested from the city are doggy waste station, garbage's, and picnic tables.
- Funding is still in the works. There is still money that has been pledged, but has not been received. More funding is needed. They are currently applying for grants and still requesting donations.
