Budget Billing

Participation in the Budget Billing Program is voluntary and is offered by Breckenridge Public Utilities (BPU) to enable the customer to pay an equal amount for utility services each month.

1. Requirements:
 - a. Must be a residential customer with BPU for past 12 months at current property.
 - b. Request must be in writing.
 - c. Account must be paid in full.
 - d. Services must be connected year-round.
2. Payments are based on an average of the prior 12 months' usage.
3. Your account will be reconciled annually in December. Your December bill will reflect the actual amount that is owed, which could be slightly higher or lower than the budget billing amount that you had been paying. The new budget billing amount will then be recalculated for the next 12 months, and you will see your new budget billing amount on your January bill.
4. You will continue to receive your monthly bill, so you will know how much electricity and water you are using. However, you'll pay the budgeted amount every month (except December).
5. We will continue billing you according to your budget billing plan until you notify us that you no longer want to participate or you move. To return to regular billing, just call us at 218-643-4681, and you will be removed from this program. Further, if your account becomes delinquent, the budget billing agreement will be canceled and collection procedures will begin.
