It would be nice if Breckenridge had an ice sheet to time to keep the active living within adults relevant. Such sports would be broom ball and adult hockey.

Physical limitations would keep me from participating in these activities.

I miss the old hockey rink they had in Breckenridge. It was a nice additional place to play hockey that you wouldn't have to worry about losing your puck. Another place to skate around and play with a stick and puck would be valued. Especially for kids who are younger than teens and are less accomplished skaters.

I am interested in improvements for the ice rink at the BFCC- We miss the rink with the walls, so the puck didn't get lost. We go to Wahpeton's rink sometimes, but their rink always has older kids and mine don't have space to skate and play casual hockey. The BFCC rink gets pretty full of kids during warming house hours and on weekends, and Wahpeton didn't prepare the pond for skating this year. So more ice skating space, especially if it's set up for hockey (including the walls to catch the puck)

Snow shoeing and cross country skiing sound like fun, but I have no idea how to do them. There would need to be classes for them
