

PLANNED WATER OUTAGE FOR SOUTH BRECKENRIDGE

Breckenridge Public Utilities is planning a water outage for all of SOUTH Breckenridge, including homes and businesses. This outage is expected to be from approximately **8am to 5pm on Thursday, July 15th**. This outage is necessary to complete work on the water mains for the South Side Drainage Improvement Project along New York Avenue.

Here are a few ways to get prepared:

1. Fill up your bathtub with water to use for toilet flushing. Simply pour a bucket of this water in your toilet tank after each flush, and only flush when absolutely necessary.
2. Use anti-bacterial hand sanitizer for hand washing.
3. Fill a container(s) of water and place in your fridge for drinking water.
4. Plan to NOT do laundry that day (even after 5:00 PM). This will give the water plant time to refill all piping.

Reminder to turn off your water heater during this outage.

Stay tuned to www.breckenridgemn.net and City of Breckenridge Facebook page for more information.

If you would like additional details on this project, visit www.breckenridgemn.net/city-projects.

If you have any questions, please contact Breckenridge Public Utilities at (218)643-4681.

Breckenridge Public Utilities is also asking if you have an elderly neighbor or relative please reach out to them and advise them of this outage. Thank you for your patience as we work to make some very important upgrades to our city's infrastructure.
