### 3. PartnerSHIP 4 Health Trail Study

-Neil informed the committee that there was a meeting held with the advisory committee in January including the Army Corps. This was an introductory meeting of what is wanted to be done, where and how most of the property is not city owned. During this meeting there was a discussion about the paving of our levees. The current representative (Eric W.) from the Army Corps did say this was possible.

-Neil also had a meeting with Brian at Ulteig Engineering, during this meeting there were minor changes in the original plans from original meeting. The changes included having the trail connection to Wahpeton on the north side of the town to be adding a pedestrian bridge (like the golf course) by the Devine property across to Kidder Dam and using Wisconsin/Dacotah Avenue on the south-side of the railroad tracks to get pedestrians to the Bois de Sioux Adventure Area vs. crossing a four-lane road.

-The agreement has been sent to Ulteig to complete the feasible study for \$10,000.

-Next meeting is set for February 27<sup>th</sup> at 10am at City Hall, Council Chambers

\*Lori G. offered a motion to use the \$3,354.71 from R-W Health Watch Donation to be used to purchase new wind screens for the pickleball courts, then apply any other specific wind screen donations, and any remaining funds needed should come out of the Active Living Committee Budget. The motion was seconded by Chris and carried unanimously.
