PUBLIC NOTICE:
Fire Hydrant Flushing
Crews are Currently
Flushing Fire Hydrants

Residents & Businesses may experience periodic drop in water pressure, discolored water and possible sediment.

The water supply will remain safe to drink.

If you notice any discoloration in your water, first remove the screen from sink faucets and clean any particles from the screen, then run your water faucets and let the water flow until clear, reinstall screen.

If you have any questions please call (218)643-4681.
