Data sharing with authorized entities or individuals

State or federal law may authorize the sharing of not public data in specific circumstances. Not public data may be shared with another entity if a federal or state law allows or mandates it. Individuals will have notice of any sharing in applicable Tennessee warnings (see Minnesota Statutes, section 13.04) or the City of Breckenridge will obtain the individual's informed consent. Any sharing of not public data will be strictly limited to the data necessary or required to comply with the applicable law.

Ensuring that not public data are not accessed without a work assignment

Within the City of Breckenridge, divisions may assign tasks by employee or by job classification. If a division maintains not public data that all employees within its division do not have a work assignment allowing access to the data, the division will ensure that the not public data are secure. This policy also applies to divisions that share workspaces with other divisions within the City of Breckenridge where not public data are maintained.

Recommended actions for ensuring appropriate access include:

- Assigning appropriate security roles, limiting access to appropriate shared network drives, and implementing password protections for not public electronic data
- Password protecting employee computers and locking computers before leaving workstations
- Securing not public data within locked work spaces and in locked file cabinets
- Shredding not public documents before disposing of them

Penalties for unlawfully accessing not public data

The City of Breckenridge will utilize the penalties for unlawful access to not public data as provided for in Minnesota Statutes, section 13.09, if necessary. Penalties include suspension, dismissal, or referring the matter to the appropriate prosecutorial authority who may pursue a criminal misdemeanor charge.
